

# unparalleled solution provider

The willingness of Zamil Steel's professionals to listen, understand, and solve customers' problems promptly and reasonably, has made Zamil Steel the most reliable supplier in the steel industry. As recognized by countless customers as, a pleasure to do business with.

## One-stop Solution

From engineering, manufacturing, to the erection of your steel building, we take the burden off your shoulders.

## Cost Effective Solution

With our strong track record and advanced software, every inch of your building is designed to perform at its optimum, thus achieving maximum cost effectiveness.

## Fast Solution

Zamil Steel components are fabricated at our factories, which enables speedy delivery and easy installation on site.

## Premium Quality Solution

Zamil Steel's integrated manufacturing facilities and seamless quality assurance procedures ensure every steel building is of premium quality.

## Global Solution

With over 65,000 Zamil Steel Buildings supplied to more than 90 countries worldwide, Zamil Steel has the global experience to serve your international and local requirements in every aspect.

## Innovative Solution

The technical know-how of Steel Buildings and Structural Steel has enabled us to deliver innovative solutions with commendable results.

## Multi Purpose Solution

From roof systems to floor systems, factories to aircraft hangars, pipe racks to petrochemical plants, Zamil Steel builds virtually any steel structure for any application.

## Customized Solution

Leveraging on over 35 years of experience in design and fabrication of Steel Buildings, Zamil Steel customizes the perfect fit solution to meet your functional, architecture and financial requirements.

## Green Solution

Zamil Steel truly believes in sustainable growth. We design our buildings to utilize harmony between the natural sources of light and wind in mind.

Join thousands of satisfied customers around the globe who have built with Zamil Steel. Make Zamil Steel your choice for your next building.

# Zamil Steel Buildings Vietnam Co., Ltd.

# about us

The establishment of **Zamil Steel Vietnam (ZSV)** in 1997, brings together a joint venture between Zamil Industrial Investment Co. (ZILC), an International manufacturing and fabrication group, with Japan's trading giant, Mitsui & Co.,.

Serving the buoyant Vietnamese and Asia Pacific Markets, ZSV has grown through sustained success, to become the premier Steel Buildings and Steel Structures supplier in Asia Pacific. With two state-of-the-art manufacturing facilities in Vietnam, supported by 16 area sales offices in 10 regional countries, ZSV ensures top quality products which is reflected by our continuous customers' satisfaction by leveraging on our global corporate experience in both design and fabricating of over 65,000 steel buildings across the world. ZSV is also a part of an extensive network of Zamil Steel Global Group that consists of 6 manufacturing facilities, 8 engineering offices and 60 area sales offices worldwide.

**Hanoi Plant** located in Noi Bai IZ, Hanoi, Vietnam

Constructed in 1997, this plant specializes in the fabrication of Pre-Engineered Steel Buildings and heavy Structural Steel products.

|                             |                    |

| <b>Fabrication Capacity</b> | 4,500 MT per month |

## global experience, local solution

### Engineering Expertise

Our in-house engineering groups at Zamil Steel Vietnam are a part of the ZS Global Engineering Network which consists of 8 offices located in 4 different countries with two offices located in Vietnam (Hanoi and HCMC). Leveraging on the experience of supplying more than 65,000 steel buildings to over 90 countries worldwide, we have the ability to design to international codes and customize the best solution to meet your functional and architectural requirements.

Furthermore, our experienced and professional engineers at ZSV utilize up-to-date software to design and detail every steel building in order to achieve maximum cost efficiency for the supply of all our Steel Buildings.

### Manufacturing Excellence

Our manufacturing facilities, which rank among the most advanced in Asia Pacific, are supported by over 35 years of industrial experience and world-wide technical capabilities. With high-tech equipment, well-trained employees and experienced management, our production efficiency is unparalleled.

Whether your building is in Vietnam, Indonesia, Japan or elsewhere in

Asia Pacific, our strong stock hold of raw materials and manufacturing capabilities ensures top quality finished products at timely deliveries.

### Seamless Quality Assurance

At Zamil Steel Vietnam, stringent quality control procedures are maintained in order to ensure the utmost consistency in the quality of "Made by Zamil Steel" products. The Quality Control Department at Zamil Steel Vietnam has the best engineers, tools and facilities to conduct the quality assurance control in accordance with international standards and best practices.

# products and applications

design • fabricate • supply • install

## pre-engineered steel buildings

Customized steel buildings are tailor-made to user's architecture and engineering requirements. Maximum efficiency can be achieved using built-up members that are tapered in accordance to calculated stress limits which optimizes the use of materials and eliminates the restrictions and wastage of standard stocked I and H beams. These often reduce the design tonnage up to 30%. Pre-engineered Buildings are most suitable and economical for low rise buildings spanning up to 90.0 meters with eave heights up to 30.0 meters.

### Applications

- factories
- steel mills
- fertilizer plants
- warehouses
- aircraft hangars

## structural steel

A diversified product line of ZSV that fabricates structural steel and plate works for various heavy industrial and commercial applications. With an excellent track record in structural steel fabrication for over two decades in the Middle East, Zamil Steel extended its structural steel fabrication division to Vietnam in 2008 targeting the highly potential industrial prosperity in Vietnam and the Asia Pacific region. ZSV's Structural Steel fabrication is controlled by state-of-the-art Computer Numerical Coded (CNC) equipment; it also utilizes the latest Engineering software for detailing & connection design.

### Applications

- power plants
- cement plants
- petrol chemical plants
- equipment racks
- high-rise buildings
- commercial buildings
